

## Mobile Learning Essentials

### Solutions and services to make mobile learning programs easy, safe, and effective

Lightspeed Systems makes it easy for schools to roll out, manage, and use mobile devices. Only Lightspeed Systems provides the three integrated elements that make a mobile learning program successful:

#### 1. Mobile Management

Our Mobile Device Management solution takes a unique school-focused approach that makes it easy for districts to manage their mobile learning devices.

#### 2. Safety

Our Rocket appliances provide CIPA-compliant filtering on desktop and mobile devices, ensuring that both users and devices are protected.

#### 3. Collaborative Learning Platform

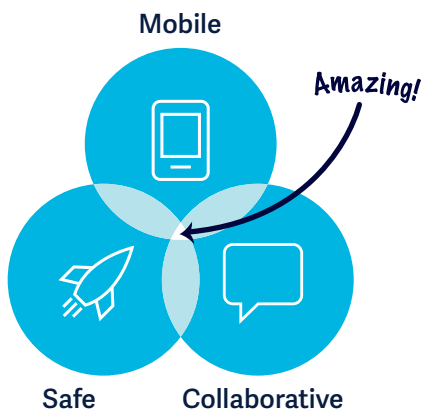

My Big Campus provides a complete platform for learning, collaboration, and digital content.

PLUS we offer configuration services so devices can arrive at your district asset tagged, engraved, and configured with your chosen apps and policies – ready to hand out to students.

#### Our solutions integrate with your device features and apps:

- Store and access device content in a private digital locker
- Push apps to devices
- Integrate device content into lessons
- Control device features, like the camera, settings, screen shots, browser, and more
- Extend content filtering policies to devices
- Push eBooks and digital content to devices

## Together we do amazing things

Education needs the technology revolution that has transformed every other industry. How do we get there? By engaging students in meaningful projects, by creating learning communities, by extending learning beyond class walls and school bells, and by making sure that schools can safely and easily implement new technologies.

Lightspeed Systems is committed to helping schools do amazing things by enabling safe, mobile, collaborative learning environments. Founded in 1999, Lightspeed Systems develops comprehensive network security, management and mobile learning solutions for the education market. We help schools of all sizes implement mobile learning, manage their growing networks, and provide transformative learning experiences.
